Naturopathic Medicine – Consent To Treatment and Privacy Policy

Naturopathic medicine is the treatment and prevention of diseases by natural means. Naturopathic Doctors assess the whole person, taking into consideration physical, mental, emotional and spiritual aspects of the individual. Gentle, non-invasive techniques are generally used in order to stimulate the body's inherent capacity/

I hereby consent to the assessment and treatment performed by the Registered Naturopathic Doctor named below.

I understand that treatment may include treatments for therapeutic, preventative, palliative, diagnostic, cosmetic, or other health related purposes. Treatment modalities include dietary modification and nutritional supplementation, botanical medicine, homeopathy, traditional Chinese medicine and acupuncture, hydrotherapy, physical medicine and lifestyle counseling. Bowen therapy may also be used, as well as bio-identical hormones.

Even the gentlest therapies have their complications in certain physiological conditions such as pregnancy and lactation, in very young children, or in those with multiple medications. Some therapies must be used with caution in certain diseases such as diabetes, heart, liver or kidney disease. It is very important therefore that you inform your Naturopath immediately of any disease process that you are suffering from or if you are on any medication or over-the-counter drugs. If you are pregnant, suspect that you are pregnant or are breast-feeding, please advise your Naturopath immediately.

There are some slight health risks to treatment by Naturopathic Medicine. These can include, but are not limited to:

- Aggravation of pre-existing symptoms
- Allergic reactions to supplements or herbs
- Pain, bruising or injury from acupuncture

Supplements may be prescribed by your Naturopathic Doctor, these can be purchased at the clinic or at other local health stores. Please note: extended health insurance companies may not cover the supplements prescribed to you.

I understand that I may rescind or amend this consent in writing.

I further understand that the clinical, psychological and any other information which is gathered during the course of my treatment is confidential, but may be shared with my insuring agents, third party payers and/or physician(s) upon request.

Privacy and protecting your personal information is something we take very seriously. All personal information gathered adheres to the privacy legislation and standards of the College of Naturopaths of Ontario(CONO).

I have read the above consent, and I have had the opportunity to ask questions about its content. This consent will cover the naturopathic assessment and entire course of treatment.
